HELPED ME AS IT HELPED MY SISTER

Stomach and Kidney Trouble
Quickly Relieved by
DRECO

When one in a family has found relief from suffering it is natural that when another member of the family becomes sick that the same medicine should be tried. The family has confidence in its recuperative powers, they have seen what it can do. This fact is borne out by the case of Mrs. James Gray of Grindstone.

"DRECO helped my sister so in getting her stomach in good condition that I decided to take DRECO myself," declares Mrs. Gray.

"Two bottles of this wonderful remedy helped me as it helped my

sister.

"Not only has my kidney trouble disappeared, but I can sleep well, something I have not done for a long time."

"I think DRECO is a wonderful medicine. Everyone with kidney or stomach trouble should take it."

It cannot be repeated too often that the stomach is the fountain which supplies every part of the body. If the stomach is sick the brain, liver, bowels and kidneys are all sick. The trouble may all be felt in one spot, it may be in the liver, or in the kidneys. It will be felt in the weakest place. Wherever it is DRECO corrects the trouble by its prompt action on the stomach.

Call today at the Connellsville Drug Company. Ask them to tell you of the merits of this wonderful remedy. DRECO is the one medicine that will help you.—Advertisement.

MOTHERS AND THEIR CHILDREN

Young Wilton 'Tree'. Children can learn lessons in grace from trees. My children have a tree exercise of their own which is a splendid muscle developer. Women Tell Each Other How They Have Been Helped by Lydia E. Pinkham's Vegetable Compound

Perryburg, Ohio.—"I took Lydia E. Pinkham's Vegetable Compound because I suffered with pain in my side all the time. I can't remember just how long I suffered, but it was for some time. One day I was talking with a lady I met on a car, and I told her how I was feeling and she said she had been just like I was with pains and nervous troubles, and she took the Vegetable Compound, and it cured her. So then I went and got some, and I certainly recommend it for it is good. Whenever I see any woman who is sick I try to get her to take Lydia E. Pinkham's Vegetable Compound."—Mrs. Ada Erick, Route 3, Perryburg, Ohio.

In nearly every neighborhood in every town and city in this country there are women who have been helped by Lydia E. Pinkham's Vegetable Compound in the treatment of ailments peculiar to their sex, and they take pleasure in passing the good word along to other women. Therefore, if you are troubled in this way, why not give Lydia E. Pinkham's Vegetable Compound a fair trial.

STORM PUTS OUT LIGHTS DURING CLASS PROGRAM

Continued from Page One.

Japanese music played for this scene was written by A. Harberg, a member of the Class of 1915. The Japanese girls are Dorothy Landis, Zella Nye, Yolande Gigliotti, Mary Maude Coughenour, Adele Scott, Helen Miner, Lila Guldio and Lola Detweiler.

The scene at Waikiki Beach, Hawaii, is one of the most beautiful. A row of girls playing ukuleles adds much to the spice of the number and boy singers, with their skins bronzed and dressed in white, stand behind the ukulele girls.

The two boys and girls walk in, having lessons rehearsed after the girls decided it was very romantic for them to follow all the way around the world. The youth quietly slip rings over a certain finger on the left hand. Vocal and instrumental numbers are given by the boys and girls in the part and the scenery lent to the charm of the strumming ukuleles.

The ukulele players were Roselle Guyan, Margaret Joan Laine, Charlotte Talvey, Eleanor Bielecky, Mary Thompson, Virginia Woods, Ella Louise Ballew, Mary Keady and Gladys Kregar, with Edison Harmon at the guitar. Singers were Daniel Smith, Lloyd Shaver, Joseph Stillwagon, Richard K. Dixon, Paul Seelie, Clarence Yaw and Ralph Black.

The program was closed when the entire class assembled on the stage and sang the school song, written to the music of "Three O'clock in the Morning" by Richard K. Dixon.

The exercises were rehearsed under the direction of Misses Mary L. Stevenson, Mary S. Hudson, Dorothy Geisz and Mae Drecher, all teachers in the High School.

City Church League Will Get Under Way Tomorrow Evening

Lutherans and Methodist Protestants Will Meet at Fayette Field.

TWO GAMES EACH WEEK

The Connellsville Church Baseball League will get under way tomorrow evening. There are five clubs in the organization and two games each week will be played at Fayette Field, Tuesday and Friday evenings being secured for the engagements. The opening clash will be between the Lutheran and Methodist Protestant teams.

The second game will be next Tuesday evening when the United Brethren and United Presbyterian Church teams will clash. All games will be played at 6 o'clock.

The schedule has not been entirely completed but this week will be done in the next day or two. The fifth contest in the league is the Covenanters aggregation.

Officers of the church organization are Rev. J. M. Johnson, pastor of the Lutheran Church, president; Rev. P. J. Scott, pastor of the United Brethren Church, vice-president; Charles Carson, secretary; C. A. Conaghan, treasurer.

WASHINGTON FIELD CLUB ATTRACTION AT BALL PARK SATURDAY

The Connellsville Independents, really a new team if the number of replacements made last Saturday are to be considered, will have a hefty opposition on their hands Saturday afternoon in meeting the Washington Field Club. The visiting team will be made up of players who play every day and the as strong or even stronger than the Homestead Grays. "Bill" Heimick, who has been secured for the remainder of the season as a closer pitcher will be on the mound and a lot of other old familiar faces, particularly those of the Frazier brothers, will be seen again in Connellsville history.

Fans are anxious to see how the new combination works out. The hitting or fielding strength of the team does not seem to have been hampered. Two of the former out-of-town players retained are Korb and Broth. The former player at short, has been all that could be desired since coming to the club. He has played his position well and is now in fine batting form. He is fond of men and most generally gets on base.

The Coker rosters will be out in force Saturday to get acquainted with the new men and to see how the team rates. Secretary Jack Harwin is filling out the club's schedule. He reports satisfactory progress with Scottsdale and is confident of a series with Uniontown as such a clash would result in a close out in the county.

Great Leviathan Will Sail 4th of July

Over Million Pounds of Copper and Brass Used in Her Rebuilding—Flying Stars and Stripes, World's Largest, Most Beautiful Ship.

FOURTH OF JULY this year will have an added significance in American history. On that day, the reconditioned Leviathan, which a year ago was a passenger ship, will on her maiden trip as Queen of the Seven Seas, return under American hands, now on an ocean liner, probably the fastest passenger ship afloat, with a

A Regiment of Men, Working a Year, Have Transformed the Leviathan.

tonnage in excess of the Majestic, which recently left the pier. The transformation of the Leviathan has been under way for almost a year at the New York Ship Building plant at the mouth of the James River near the site of the first English settlement in America and near the scene of the beginning of another career shipbuilding era when the Yankee Chevalier fought the Gunboat Mermaid.

The original plans of the Leviathan were held by the Germans at \$1,000,000, so Uncle Sam drew his own and they fill a book of 1,024 pages. Then the contractors put about \$300,000 to work, and out of a busy shop

there grew the present wonder vessel. Memories of the trouble the engineers had during the war with the Germans' iron lubricating pipes were recalled and every means taken to guard this beautiful vessel from the destructive action of rust.

In all over a million pounds of copper, brass and bronze were used in her remodeling. From her great bronze propellers, to the 25 miles of copper tubing used in the steamroom heater system, the 75,000 feet of copper wire in the lighting system, all copper salt water pipes in the plumbing, and 20,346 pounds of brass in the condenser, the ship has been made rust-proof with copper and brass.

A new idea of the great line of the Leviathan can be gained from the fact that her copper heating coils alone exceed by 50,000 pounds the weight of the 200,000 pounds of copper in the Statue of Liberty. Picture a great, modern, luxuriously furnished hotel, made more spacious with great promenades, galleries and lounging rooms. Imagine it spread out to the length of nearly four city blocks, and then duplicated twelve stories high, and the whole open on all sides to the clean breezes of the sea. That is a good picture of the Leviathan, greatest ship of all time. She will sail for Washington on the Fourth of July, under the stars and stripes.
